PROFILE

I am also one of those ambitious and hardworking individual but combined with much more required skills such as the smart-working and the time management skills, with problem solving skills and experience in programming and web development. Furthermore, I am adept at handling multiple tasks on a daily basis competently and at working well under pressure(a lot too).A key strength is communication; building strong relationships with people in order to deliver the best results. Not only possessing the programming skills, I have also taught more than 50+ students like me to step in and taste the essence of programming.(Not for commercial purpose)
